# HOW TO MAXIMISE FUEL EFFICIENCY

There are a number of ways you can definitely get more miles out of your fuel. It's easily possible to boost your fuel efficient by 40 percent. While one single method might not maximise your mileage, adding them up could see you squeezing dozens of miles out of every litre of petrol.

## INFLATE TYRES PROPERLY

A tyre loses a single PSI every month. You should check your tyres monthly.

## WHAT'S IN THE BOOT?

Clean and empty your car and the fuel economy will climb up accordingly.

## TUNE-UP

An efficient engine is a tuned one.

## STICK TO THE SPEED LIMIT

Drive over 70mph and fuel efficiency can drop significantly. Slow down and boost your fuel economy.

## ROOF BARS

Yes we know it's a pain to remove your roof bars, but it could save you as much as 15%.
